## Chamber Board Honors City Officials at Dinner Party

Despite icy weather, 51 persons attended a "get acquainted" cocktail and dinner party Monday night at the Rose Bowl. Granite City municipal officials and council members were the guests, and Tri-Cities Chamber of Commerce board members were the hosts.

All who attended spoke briefly, but the emphasis was on informality and there were no speeches. Most commented that such gatherings are pleasant and constructive.

The closest anyone came to specifics was Carl E. Mathias, Chamber president, who explained that it was the first of a series of dinners being planned for Quad-City officials.

In opening the remarks which followed the steak dinner, Mathias said there are some issues on which the council and Chamber of Commerce might disagree but far more on which they agree.

Where there are common interests, mutual support can help achieve goals that make this a better community in which to live and work, he noted.

Manager of the local Illinois Power Co. service area, Mathias drew laughter when he mentioned "lightning" among the improvements that can be valuable to a community. Other issues referred to without elaboration were sewers, streets and annexation.

Voluntary Assistance Mayor Donald Partney said members of the Chamber and other organizations as well as various other segments of Granite City have been assisting the municipal government on a voluntary basis, performing many valuable services without pay.

General tone of the get-together was that where Granite City can agree on objectives without compromising their beliefs, a cooperative "clashing of ranks" is not only logical but probably essential if this community is to progress.

Informal conversations also enabled Chamber directors to indicate their awareness that public office often is a thankless undertaking, with problems and complaints outweighing solutions and "pats on the back." In paying for Monday's get-together, the board members expressed thanks to the aldermen and other officials for their many services to citizens and taxpayers.

## Quad-Cityans Asked To Feed Birds

Bird lovers of the area are issuing an appeal to Quad-Cityans this week to scatter bread crumbs and seed for birds.

The feathered creatures are having problems in finding food, and it is suggested they be fed either along cleared walkways or on newspaper spread on the snow.

A squirrel fancier also noted that the deep freeze has posed a problem for those animals. The subzero weather that preceded the snow has frozen the ground so solidly that they are unable to dig out their buried reserve stores. Their favorite food, of course, is nuts.

## Shell Oil to Expand Wood River Refinery

Expansion and modernization at Shell Oil Co.'s Wood River Refinery, increasing its producing capacity from 194,000 barrels to 245,000 barrels per day, was announced by the firm this week. Currently, 57 Quad-City residents are employed at the Wood River plant, the largest of eight Shell refineries in the country.

Design has been completed and equipment is being acquired for the multi-million dollar project. Site preparation has also begun and field construction is to start in April. Completion, scheduled for early 1968, is expected to raise the plant's gasoline output 50,000 barrels per day and its turbine fuel output, 7000 barrels per day.

Major units to be added to the Wood River refinery will include one of the world's largest catalytic units and its integrated vacuum flasher.

In addition, existing units at the plant will be modernized so that the overall refinery will produce maximum amounts of gasoline and kerosene by including the use of residual fuel oils as a raw material.

Other improvement programs at the firm's Norco, La., and the Martinez, Calif., refineries will increase Shell's overall refining capacity from 685,000 barrels per day to more than 815,000.

## Students May Register Now For NMS Tests

Students who expect to complete secondary school requirements after Feb. 16 in the Granite City high school and enter college in 1967 may register in the school's guidance office for the 1966-67 National Merit Scholarship program by L. C. McCauley, principal.

The first step for all students who wish to enter the nationwide competition is to take the National Merit Scholarship Qualifying Test (NMQST), which will be given in the school at 9 a.m. on Tuesday, March 1.

Participating students pay a \$1 fee, which is remitted by the school to the testing agency, Science Research Associates. When the test is given on a Saturday the school may charge an additional fee up to \$1 for special administrative costs of testing on a non-school day. If a student is unable to pay, the testing fee will be paid by the National Merit Scholarship Corporation (NMSC) if requested by his school.

Students can take the test to obtain information useful in planning their future education or careers as well as competing for the scholarships awarded by NMSC. Along with NMQST scores, each participating student will receive a handbook to help him understand his educational strengths and weaknesses, evaluate his scores, and compare his performance with that of other high school students across the country. The handbook and other interpretive materials are furnished by the testing agency at no extra cost.

The highest-scoring students in each state will be named Semifinalists and will receive further consideration in the Merit Program. In addition to the awards made by NMSC, more than 280 business corporations, foundations, colleges, professional associations, unions, fraternal organizations, and individuals give scholarships through the Merit Program.

About 200 Merit Scholarships were awarded last year with stipends ranging from \$400 to \$600 for four college years. A winner's stipend is determined by assessing the amount of financial assistance he will need at the college he will attend.

About 11,000 students have won Merit Scholarships in the first ten annual programs.

## 86 Depot Workers Praised for Shipments to Vietnam

Extra effort by 86 employees of the Granite City Army Depot, who relinquished all or part of their Christmas holidays to voluntarily work in preparing a shipment of vital supplies for Vietnam, did not go unobserved or unappreciated.

Col. Charles B. Schweitzer, depot commanding officer, has received a letter of appreciation from Brigadier General R. R. Ploger of the Headquarters Staff, U. S. Army in Vietnam, who commended the employees for their loyalty and support. In his letter, Gen. ## Remind Veterans of Insurance Deadline

Illinois veterans have only three months remaining in which to apply for National Service Life Insurance. They either failed to take out originally or allowed to lapse in whole or in part, according to announcement by John B. Naser, director of the Veterans Administration Regional Office in Chicago. Applications may be made by veterans of world war I and the Korean conflict.

Naser said that to date more than 185,000 applications for the policies have been approved. Of these, 8000 are from Illinois.

To be eligible a veteran must have a service-connected disability or a non-service disability so severe that he cannot purchase commercial insurance at the highest rates. There are several choices of insurance plans—ordinary life, 95-payment life, 99-year endowment and modified life. A veteran does not need to take out the full \$10,000 coverage. He can sign up for as little as \$1000.

Naser said detailed information of the desirability and of eligibility may be obtained by writing or calling the VA regional office in Chicago.

## Hiscoff Elected Secretary of State Magistrate Group

The Illinois Circuit Court Magistrates' Association will seek a \$5000 annual pay increase for downstate magistrates when the state legislature meets next. Hiscoff, who was elected secretary of the state organization, told the Press-Record that while the speaker, John W. Freels, Illinois Supreme Court administrator, said that an increase of at least \$2000 will be sought, the magistrates plan to request the larger amount.

Hiscoff, who was accompanied to Springfield by Magistrate Andrew Matosian, also of Granite City, said the 40 downstate magistrates present stressed that the magistrates in Cook county not only receive the regular \$10,000

pay by the state but also an additional \$6000 from Cook county. "We feel there should be equal treatment with the full amount paid by the state," Hiscoff said.

In the state-wide court switch-over last year, 168 magistrates were named in downstate counties and about 125 in Cook county.

In yesterday's election, Joseph Keltner, Edwardsville magistrate, was named president of the state organization.

## 500 Boys Scouts to Hold Klondike Derby

Racing through Klondike country with dogsleds in a race to ward a mock North Pole in a quest for gold nuggets will highlight the Klondike Derby at 1 p.m. Saturday.

The event for boy scout patrols is sponsored by the Chokoma Mounds State Park at 1 p.m. Saturday.

Each dogsled team (comprised of a patrol leader as the driver and eight boys pulling the sled as dogs) will compete against one another for valuable gold nuggets, awarded for skills in

various scouting activities. From the starting gun blast through the woods, with slow and the unavoidable yells of the Klondike.

Ribbons will be given for the patrol that scores the highest in individual events, and trophies for first, second and third place dogsled teams, and trophies for the patrol that scores the highest in the basis of overall competition.

Already 60 patrols have registered for the event, with an estimated 500 boys to participate in the derby.

He called the fire department.

A ratskinner and laundry room in the basement were destroyed. She said furniture and walls will have to be refinished and she will try to have all of the clothes cleaned.

The children "went to school Tuesday, but they didn't feel good Wednesday, so I went and got them at noon."

"The dog was a lot of trouble at times, but I think he saved our lives," Mrs. Byrd concluded.

# Minutemen 'Ride' to Venice for Conference Lead

## Pioneers Upend Madison; Lusk Boys Pace Trojans

A cold Madison team ran head-on into a hot Assumption cage squad and the Trojans were the victims of a 76-68 upset at Madison last night.

Madison could not get a sustained scoring attack moving against the Pioneers, who garnered their first win in three games with the Trojans.

Madison beat the Pioneers 76-57 for third place in the Assumption tournament, and downed them once again, 72-46, in the Mater Dei tourney.

Assumption got the opening tip-off last night and gained a 3-0 lead when Tim Moore was fouled while making a basket. Madison came back moments later to tie the score at 5-5, but Moore hit another basket and Assumption was never headed.

The new "spot-up zone press" used by the Pioneers proved effective against the Trojans, as Madison was not able to get quick shots.

Dale Turner was benched early in the third period with three personal fouls. The Trojans received a much needed scoring boost from Paul Lusk, who entered the game in the second period.

Lusk came off the bench to score 20 points, 20 in the second half. The 6'2" pivotman for the Trojans hit on six field goals and 18 free throws as he led all scorers.

Lusk got the opportunity to take numerous charity shots when he was fouled under the basket on both offense and defense. He missed four charity throws early in the game, but made 16 consecutive shots in the contest.

Turner, meanwhile, was having trouble finding the basket. The Madison scoring sensation netted only 11 points, his lowest single-game performance this season.

But the other Lusk on the Trojan team, sophomore Gary, combined with his older brother to lead the Madison attack. Gary Lusk netted 17 points from his forward position.

During the first half, Madison was losing the game on the backboards. After Paul Lusk, a senior, came into the game, the Trojans had the advantage on the boards.

### Venice-Aviston Game Postponed Indefinitely

The Venice basketball game at Aviston, scheduled for Tuesday night, has been postponed indefinitely due to the snow, according to Bill Olenford, Venice basketball coach.

"We talked to the school officials at Aviston late Tuesday and couldn't set a date for the game. They've been out of school all week, down there," Olenford said.

The Red Devil mentor added that the game may be rescheduled for the first part of the district tournament week, Feb. 21-25.

points of catching the Pioneers in the fourth period, when the score was 67-62. A field goal and three free throws by reserve John Howard put the Pioneers further ahead and the game out of reach for Madison.

"We had tremendous efforts from the bench during the second half," said Pioneer coach Dick Ryan. Greg Scott, Dan O'Connell and Walt Smith fouled out in the fourth quarter and Ryan was forced to dip into his reserves to protect the lead.

The Pioneers hit 80% of their charity shots and 46% from the field, while Madison was slightly lower in both departments.

"We just didn't play well and didn't defend well. When a team scores 70 points, they're bound to beat you," said Trojan coach Earl McClanahan.

The game leaves Madison with an 11-4 season mark and the Pioneers with a 10-5 record.

### Coolidge Rips Madison, 55-38

Coolidge's ninth grade cage team scored an easy 55-38 win over Madison at Coolidge Tuesday, and tuned up for its final game of the season against Prater Thursday, Feb. 10.

The Braves jumped to a 28-17 halftime lead and, behind the shooting of John Van Buskirk and Gary Simpson, with 20 and 19 points, were never threatened.

The win gives the ninth grade Braves and 11-2 overall mark and their conference record is 7-2.

Next Thursday the Braves host Prater, and need a win in order to have a shot at the Madison County junior high conference championship.

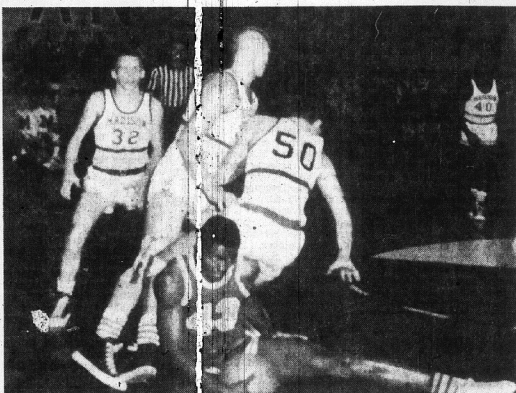

Currently, Coolidge and Webster of Collinsville are tied for the league lead with identical 7-2 records. Webster plays at Roxana Thursday night, and a Roxana win coupled with a Coolidge victory would give the Braves the undisputed title.

### Bus Schedule for Braves Hockey Game

Three buses will take 145 Granite City residents to the St. Louis Braves-Memphis professional ice hockey game at the Arena in St. Louis Saturday.

The buses are scheduled to leave at 6:30 p.m. from 27th and State streets.

The trip is sponsored by the Granite City park district, and is the second of its kind. "All of the tickets have been sold out for some time now," said Sup. Harold Brown.

**MISPLACED BASKETBALL** is really not lost as Assumption's Ron Young (43) holds the ball in his lap. Madison's Paul Lusk (64), Steve Geroff (50) and Gary Lusk (32) search for the round ball. The Pioneers upset Madison 76-68 here last night.

## Fuchs Continues Winning Ways; Warriors Decision Edwardsville

The smallest man on the Granite City wrestling team has set the Warriors' record for the most pins in a single season.

Bill Fuchs, the 95-pounder for coach Bill "Red" Schmitt, scored his 22nd pin of the season while defeating Edwardsville's Wayne Ausberger in 56 seconds at 11:00 a.m. overall competition.

Los: Standout Guard

Since the earlier meetings of the two teams, Bunker Hill has lost the services of its outstanding guard, Larry Allen. Allen had played the point position on the Minutemen's 1-2-2 zone defense, and was stricken with a kidney infection early in January. The Minutemen lost to Wor-

den 45-44 in the first game that Allen was out.

In other action involving Quad-City prep teams, Granite City travels to East St. Louis on Friday and to Edwardsville on Saturday, and Madison plays at Roxana on Friday.

The Warriors are well into the home stretch of their Southwest Conference basketball schedule and need wins in both games over the weekend to gain prestige.

In earlier meetings, the Flyers beat Granite City 62-57 and the Edwardsville Tigers beat the Warriors by a 76-70 score.

## GC at East St. Louis, Edwardsville; Madison Travels to Roxana

Bunker Hill's Minutemen will face the Red Devils of Venice here tomorrow and the winner of the game will probably be the MCM Conference basketball champion for the season.

Both teams are 8-1 in the conference and tied for first place. The winner will have a clear way ahead as Venice's lone loss was to Bunker Hill and the only loss for the Minutemen was to Wor-

den. This will be the last time the two play this year, and the Minutemen will not meet Wor-

den again this season.

The winner will be favored to win the remainder of its games. Venice has defeated its eight foes handily, scoring 81.4 points per game while allowing only 53 to be scored by the other team.

Bunker Hill has netted 58.5 points offensively and allowed 44.8 points defensively.

In the MCM Conference tournament earlier in the season, the Red Devils defeated the Minutemen 66-62, but Bunker Hill got a revenge in a regularly-scheduled conference game, 76-68.

## Garlan Farless, Vernon Lucas Die Suddenly

Two well-known sports figures in the Quad-Cities died of heart attacks after shoveling snow Tuesday afternoon.

They were Garlan Farless, 40, of 2300 Gary avenue and Vernon Lucas, 61, of 733 Bond street, Collinsville.

Mr. Farless, owner and manager of the Tri-City Speedway, died inside his home after complaining of pains in the chest. He had returned from a trip to St. Louis, and found his driveway blocked by snow. He showed a path for the car to enter the garage, and then entered the house, being stricken a short while later.

Mr. Lucas, owner and manager of the Tri-City Speedway nearly four years ago and managed the track in all its operations during the summer. He also developed the Shamrock Gardens subdivision and its Addition No. 1. At one time, shortly after moving from his native Tennessee, he ran a confectionery in Granite City.

Two of his three surviving brothers, Willis and Otis, both of Granite City, drove to Dover, Tenn., to pick up their parents, who were isolated from transportation due to heavy snow.

He also is survived by his wife, Mrs. Orma Farless; his parents, Mr. and Mrs. Albert A. Farless of Dover; a daughter, Mrs. Rich and (Ann) Hoston of Granite City; another brother, Clarence of Dover; a sister, Mrs. Orma Derrill, also of Dover; and two grandchildren.

Funeral arrangements are given in today's obituary column.

Mr. Lucas, founder of the Southwestern Illinois Inter-City Baseball League, suffered a fatal attack after shoveling snow and assisting stalled motorists.

Re-elected to the post of president of the baseball league for a five-year term last Sunday, he had been active in the league since 1931. He was president of the league for all but two years.

Mr. Lucas was employed as the chief clerk of the Madison County Jury Commission and had been a juror for many years. He had served as grand juror of the Knights of Columbus, was a Democratic precinct committeeman and was city clerk of Collinsville from 1942 through 1959.

Surviving are his wife, Marcelle, and two daughters. His remains were taken to a Collinsville funeral home, where Rosary recitation will be held tonight. Funeral services are planned for Friday morning.

### MORE ABOUT Minutemen

11 games. Currently, the Flyers are 12-5 overall and 5-3 in conference action.

The last time the two teams met, Forry Wells and John Lo-grasso led the East St. Louis attack with 16 points each, while Jim Hentzel and Larry Ripka netted 16 and 15 for Granite City.

**Held Halftime Lead**  
The Warriors held quarter and halftime leads before the Flyers rallied with spirited defense in the second half to win the game.

Ralph Sackett is expected to start the usual five of Larry Ripka, Elmer Wortham, Jim Hentzel, Terry Moore and Jim Stuart. Pili O'Neill and Bob Malott will be the sixth and seventh men on the Warrior team.

Edwardsville's Jim Jackson and Leon Moore, with help from Tom Dezo and Fred Crook, led the Tigers' attack in the previous meeting of the two cage teams.

Jackson was top scorer for Edwardsville with 19 points, but Terry Moore was high scorer of the game, getting 21 points before he fouled out early in the third period.

**GC Has Won 8 of Last 11**  
The Warriors have won eight of their last 11 games, dropping three to conference foes Belleville and Collinsville (one).

Edwardsville broke a three-game losing streak to win two of its last ball games for a season mark of 8-6. Granite City is 11-8 in overall competition.

The Trojans will continue their efforts to stay in contention for the Midwestern title when they visit the Shells at Roxana.

**42 League Record**  
Madison is 4-2 in conference action, while the Shells will be looking for their first league win. They are 7-0 in conference play.

A win for Madison would save a chance for the conference title, while a win for Roxana would brighten an otherwise dismal conference season.

## MORE ABOUT

### Levee Budget

front levee work done in conjunction with the U. S. Corps of Army Engineers, the budget sets out \$13,000. No appropriation for this project was made last year. The sum of \$11,000 is appropriated for work on the Nameoki stormwater drainage ditch. \$10,000 from last year's figure of \$12,000. A budget figure of \$330 is set for maintenance of the Madison stormwater sewer, down \$250 from last year's \$600.

Appropriations for all of the district's projects, along with deviation from last year's figures, are:

Project one, Cahokia diversion channel at Hartford canal, \$10,100, down \$400 from last year's \$10,500; project two, maintenance of abandoned levee system northwest of Mitchell, \$100, down \$400 from \$500; project three, riverfront levees from Merchants bridge to Cahokia channel, \$4650, down \$500 from \$5150.

Project four, riverfront from Brookline to Merchants bridge, \$2250, up \$150 from \$2100; project five, St. Clair county riverfront, \$1800, up \$600 from \$1200; project six, St. Clair county riverfront, \$500, down \$500 from \$1000; project seven, St. Clair county riverfront and East St. Clair, \$35,850, up \$1950 from \$33,900; project eight, Prairie du Pont channel, \$17,100, down \$1500 from \$18,600; project nine, Riverfront St. Clair county, \$12,100, up \$600 from \$11,500.

Project ten, South and Cahokia pumping stations, \$46,800, down \$1500 from \$48,300; project eleven, Cahokia Channel at Horseshoe Lake and Route 162, \$17,700, up \$1000 from \$16,700; project eleven, north pumping station, \$64,200, up \$2500 from \$61,700; project eleven, old at Horseshoe Lake, \$28,400, up \$12,750 from \$15,650; project eleven, channel east of old route 67, \$150, down \$100 from \$250; project eleven-g, Washington Park sanitary trunk sewer, \$200, down \$50 from \$250; project eleven-h, Rosemont sanitary trunk sewer, \$1000, down \$400 from \$1400.

### Some Costs Drop

Project twelve, open channel paralleling Harding Ditch, \$25,600, down \$14,350 from \$40,000; project thirteen, \$12,000, none last year; project fourteen, Fairmont City and Washington Park drainage ditch, \$17,000, down \$18,000 from \$35,000; project fifteen, Nameoki stormwater ditch, \$11,000, down \$1000 from \$12,000; easements for Long Lake drainage, \$500, down \$500 from \$1000; project seventeen, Harding Ditch, \$45,000, down \$5000 from \$50,000; project seventeen-b, stormwater pumping station on Harding Ditch, \$3500, up \$1000 from \$2500. Project eighteen, East St. Louis box sewer, \$150, down \$100 from \$250; project twenty, sanitary trunk line at Cahokia, \$650, up \$500 from \$150; project twenty-b, continuation of sanitary trunk line at Cahokia, \$650, up \$50 from \$600; project twenty-one, Grand Marais park drainage ditch, \$500, down \$4500 from \$5000; project twenty-four, Madison stormwater sewer, \$350, down \$250 from \$600.

No breakdown is listed in the appropriation for payment of bond principal and interest, since provision for payment and date of payment is provided by passage of the original bond ordinances. Only the total sum of payments to be made during this year is required in the budget. The same situation applies to the \$1,500,000 bond fund sold last year for the lower district's Lansdowne Sewage treatment plant and trunk lines to Madison and Venice. Repayment of these revenue bonds is scheduled in the bond sale ordinance, and payment of construction costs is made out of the bond fund as the money is needed. Appropriation approval therefore is not required. If no public protest of the budget and appropriation bill is made in Friday's meeting, the measure will be passed by levee district board members.

## THIS I BELIEVE

I recognize that no one should strive to be different just to be different. But in Bible Christianity there is a necessary difference from mere Church Christianity. Bible Christianity is strictly based upon express Scripture and necessary implications therefrom; mere Church Christianity is a mixture of Scripture, philosophy, sociology, psychology and such like.

A Church that is founded upon the ROCK—JESUS CHRIST, is strictly Scriptural in all matters pertaining to faith and morals.

United Pentecostal Church offers the infallible word of God in contradiction of the multi-mixture of world ideologies. This difference is clearly seen in the honor given to Christ and the Bible in every service. You can find out for yourself.

## A S. Illinois Pioneer

John W. Allen  
Southern Illinois University

Some places of interest in southern Illinois are out of bounds for winter visitors. That is, not true of Garrison Hill beside the Mississippi in Kaskaskia State Park. The roadway to it is always good and it is not difficult to find something there that will suggest an interesting story, or stories.

One object of this kind is the grave marker at the second burial place of William Morrison, who was the merchant prince of the upper Mississippi Valley when vanished Kaskaskia was the region's metropolis.

This Morrison marker is near the tapering shaft erected to honor the memory of those of the old town, whose remains were brought here for reburial when both the original town and its burying ground were carried away by the river. Morrison's marker is not conspicuous, and a visitor inclined to hurry along can easily pass by unnoticed.

### Unusual Arrangement

Those who observe closely can hardly fail to be drawn toward it by the usual arrangement of its two prostrate marble slabs, the other by six short, and shapely marble columns.

In a quiet way the marker is distinctive and so far as recalled is the only one of its particular pattern seen in Southern Illinois. Having noticed it the visitor naturally halts to look more closely, and perhaps becomes curious about the man to whose memory it does honor. He will learn that Morrison, like his marker, was distinctive.

William Morrison was the son of an English trader, Sir John Morrison, a partner in the firm of Bryant and Morrison, fur buyers and traders with the Indians. William was born in Buck county, Pennsylvania, in 1790. As a youth he began to work for the firm of Bryant and Morrison and soon was sent as their representative in the west.

In a few years he became the leader of an extensive business that centered at Kaskaskia and extended from Pennsylvania to the Rockies and from Wisconsin to the Gulf of Mexico. He came to Kaskaskia, then the most important town in the upper valley. Morrison prospered in business. With some of its profits he built, in 1801, the most pretentious residence in the town. This home was popularly referred to as the "Mansion." He built his home at the same time that Pierre Menard, with whose name that of Morrison often was associated, was building his home beside the Kaskaskia River.

### Visited by Lafayette

Important social affairs, were held at these homes. When the aging Lafayette came in 1825 to visit the region once owned by France he was lodged and feted by Morrison. The reception given him and the accompanying grand ball were held at the Morrison Mansion, which stood until the wandering river washed the historic town away. The Mansion and home still stands at the foot of the Garrison Hill bluff.

It was this same wandering river that caused the removal of burials in the first cemetery to a new location on Garrison Hill, far above any floods. The cemetery is near the grade covered by a dike that outlines the palisaded fort the French built about 1730.

Morrison became a wealthy man with far flung business interests. His trappers, traders and fur buyers ranged along the tributaries of the Mississippi, going up the Missouri to the nation of the Yellowstone. Morrison and Pierre Menard, sometimes partners and at other times rivals, were the men responsible for making St. Louis the greatest fur market in the world, a distinction it still holds.

### First to Go to Santa Fe

Morrison is recorded as the first man to send an overland trading mission from the Illinois country to the Spanish city of Santa Fe. This venture, in 1804, is the first made over the route that became known as the Santa Fe Trail, one of America's most historic roadways. This first venture was in the charge of a man named La Plante, who evidently turned the proceeds to his personal use.

That Morrison favored and practiced slavery is shown by records indicating that he bought, sold and worked slaves and that he rented them to others in need of labor. This was in apparent conflict with certain provisions of the law. Morrison was not at

all alone in these practices. Many others did likewise. Others also rented slaves at times, some to Morrison. With this knowledge it seems strange to find that he appears as "next of friend," a party then necessary in order that an orphan or servant could have his day in court.

Some entries from the Morrison records of slave rentals may be of interest. A few are given. The earliest one found tells us that "Cold Swartz this day hired Negro Harry by the month at \$12 per month came home on the 29th of May, 24 days of service."

Another entry at about the same time says "Rachel hired to Judge Pope this 9th day of October 1831 at \$5 per month, returned home the 28th of December."

For many years Morrison was one of the west's most noted land speculators. Countless abstracts of title to lands in southern Illinois show that he once held title to them. Among such tracts is the section of land where Morris Library of Southern Illinois University now stands.

A book could be written about the man whose grave is marked by the marble slabs in Garrison Hill Cemetery.

## 3 County Officials, Simon to Attend Meet

Three Madison county officials and State Sen. Paul Simon are to attend the meeting of the Granite City Democratic committee at 7 p.m. next Wednesday at the Hungarian home, William Warfield, chairman, announced today.

The county officials are Willard Portell of Granite City, circuit clerk; James Chapman of Collinsville, recorder of deeds; and George Musso of Edwardsville, treasurer and a candidate for sheriff.

Warfield said Mayor Parthey also is expected to attend. A neon sign above Umbertine's Furniture store, 2200 Cleveland blvd., was broken, apparently by a snowball, it was reported at 9:45 a.m. Wednesday.

## Guidelines Issued for 1966 School Candidates

Guidelines for school board membership, prepared a year ago by the Tri-Cities Chamber of Commerce in cooperation with the Illinois School Board Association, were endorsed again Tuesday night by the Chamber board.

In calling new attention to the guidelines, Chamber directors noted that 1966 school board elections are approaching. Filing will begin Feb. 23. The guidelines describe ideal qualities, objectives and attitudes for service on public boards of education. They are as follows:

1. **IMPARTIALITY**—A school board needs truly balanced representation, with each member striving to represent the school district as a whole, rather than any particular segment, and deciding issues on the basis of what is best for the youth and adults of the community, not what is best politically or for a special privilege group.

2. **CHARACTER**—Record of participation in wholesome community endeavors; deserving of full public confidence in his integrity; willing to approach responsibility with an open mind, always seeking the truth and making decisions without bias; aware that as a public official he would have the duty to set high standards of conduct.

3. **EXPERIENCE**—Sound educational background; experience of substantial duration and reasonable success in his trade, profession of business, resulting in acquisition of mature knowledge and judgment; ability to

## Engineer at Madison Yards Collapses, Dies

John J. Schaffner, 59, an engineer at the Madison yards of Illinois Terminal Railroad, was pronounced dead on arrival at 7:20 a.m., Tuesday, at St. Elizabeth Hospital, where he was taken by ambulance after suffering an apparent heart attack. He resided at 5002 Missouri avenue, Centerville township.

Mr. Schaffner was reportedly changing lights in preparation for work when he collapsed in a locker room. An inquest is pending. Funeral services will be held tomorrow in East St. Louis.

Among the survivors are his wife, Gertrude; a daughter, Mrs. Joanne O'Dell, East St. Louis; two stepsons, Benny Snyder of Caseyville and Neil Snyder of East St. Louis; and five grand-children.

## Group Organizes to Prepare for Jr. College District

A group of school administrators and citizens interested in the formation of a junior college district in Madison county and adjacent portions of Jersey and Macoupin counties organized officially Monday night to outline plans. Wilbur R. L. Trimpe, Madison county superintendent of schools, was named permanent chairman and Granite City School Supt. Russell D. Johnson is the vice-chairman.

Election of permanent officers and the appointment of a 15-man steering committee to prepare recommendations for a junior college program were two of the actions taken Monday evening at the group's third meeting, held in the board of supervisors' room, Edwardsville.

Other new officers elected were: Elmer Holmes, a Bunker Hill school board member, and Arthur Northway Jr., a member of Wood River township board of education.

It was also agreed to retain the services of a Southern Illinois University - Southwestern campus research team to study the feasibility of the proposed extended educational project, at a cost of about \$5000, and to incorporate the non-profit organization under the title Lewis and

Clark Educational Foundation, Local Committee Members: John T. Gonterman of Venice and William C. Schreiber, Natick township auditor and a Madison board member, were named to the steering committee. The latter group is composed of one representative designated by each of the participating school districts, which will share a proportionate amount of the survey costs.

Special standing committees include Madison School Supt. Wensel Brown, finance committee; Venice Supt. John O. Pier, educational program and curriculum; and Granite City Supt. Ida Hanfelder, District 29 director.

James Burton, Granite City Jaycee president, public relations and promotion; Maurice Daley, Granite City school board attorney; and Daniel Linder, board member, recommendation of sites and buildings.

Granite City school board attorney, Maurice Daley, Granite City school board president, finance; Daniel Linder, board member, recommendation of sites and buildings.

Dr. Henry Ross of the SIU-SW campus educational division, presented an outline of the proposed survey, which he reported is already under way, with initial questionnaires having been prepared for completion by high school students.

**Survey Deadline**  
The preliminary survey will be completed by Aug. 1, with results to be submitted to the Illinois Junior College Board and the State Board of Higher Education. If the survey meets requirements, a referendum is to be called in the school districts involved.

Granite City's share of survey costs amounts to \$976, with Madison to pay \$195 and Venice school district \$124. The figures are based on assessed valuation in the district and adult student attendance. Pro-rated shares were determined on the survey costing the full \$5000, the amount may be reduced to \$425.

James Burton districts taking part in the survey include Bunker Hill, Stanton and Gillespie in Macoupin county and Jerseyville in Jersey county. Southwestern school district also in Macoupin county, is reported to be considering the proposal.

It was brought out at Monday's meeting that ten junior college districts have now been formed in Illinois. Until July 1, 1970, the state will allow funds for 75% of the cost of the buildings, according to Supt. Trimpe. After that date, he added, the state's share will be reduced to 50%.

## WEATHER POSTPONES SOME AREA MEETINGS

Many snowfalls were seen living and snowmen were built in the Nameoki area following the first real snowfall of the winter Tuesday. Many cars were left unoccupied in the middle of streets due to deep snowdrifts in some areas. Children went slipping and sliding to school as parents walk-

ed back home from their stalled autos.

Due to the weather, the following scout meetings were postponed: Junior Girl Scout Troop 451 and Brownie Troops 414, 738 and 510.

The Trio unit of the Home-Makers Extension Association postponed its meeting scheduled for Tuesday afternoon until Feb. 15, at which time the unit will meet at Hope Lutheran Church.

Despite the stalled cars and other inconveniences, the snow-covered homes in the Nameoki area were regarded by many as a beautiful sight Tuesday morning.

## Funds for SIU-SW Religious Center Urged by Wilkins

Support of the current drive to finance an SIU-SW campus religious center was urged in talks at yesterday's Madison Rotary luncheon.

Speakers were former State School Supt. George T. Wilkins, general chairman of the drive, and Rev. Russell Wigfield of the United Christian Foundation, one of the five campus ministers.

Wilkins stressed the spiritual, social and moral value of the SIU-SW interfaith religious center and said contributions may be pledged for any months in each of three years, 1966, 1967 and 1968.

He said the proposed \$379,000 structure includes a small chapel for meditation but that its major purpose will be to house office suites in which ministers can provide personal counseling. Five denominations already have pledged \$40,000 each and will occupy suites, and there is room for others; in addition, the design of the center will permit later expansion, Wilkins explained.

It was announced during the Rotary meeting that the U. S. Civil Service Commission is seeking applications for the position of Madison postmaster through Feb. 23.

### COMMENCEMENT FOR SQUARE DANCERS

A group of square dancers, parents of the Y-Twirlers and Checkboard Squares of the Granite City YMCA, attended an adult commencement dance at the Kolping House in St. Louis Monday evening and became members of the Greater St. Louis Square and Round Dance Federation.

Mr. and Mrs. Charles Green of Herford, Ariz., were special guests. They attended with Mr. and Mrs. Weiss, with whom they have been spending a few days' vacation. The Greens entertained the Checkboard Squares last June at their ranch, where the group's exhibition tour of the Southwest and Mexico.

Ernie Butler of California, now stationed at the Granite City Army Depot, accompanied the group from here. Others included Mr. and Mrs. Bob Boyd, Mr. and Mrs. Ray Sharp, Mr. and Mrs. Ben Lamm, Mr. and Mrs. Weiss, Mrs. Betty Melton, Mrs. Bernice Weidner, Linda, C. C. Dan Robertson, Tom Beck, Linda Spangler, David Stone, Jimmy Taylor, Jimmy Buford, Ray Lamm, Darrell Harbison, Richard Melton, Sherine Boyd, Shelly Weiss, Suzanne Boyd, Keith Melton, Billy and Jo Ann Weidner and Shelly Boyd.

## THE ILLINOIS METRO AREA has become a "dynamic reality out of what was only an idea a year ago," Harold G. Meenen, vice-president of Illinois Power Co., told the first annual meeting of the organization Wednesday night.

A Madison resident for 47 years, Mr. Pierce was born in Fertile, Mo. He was employed as a section foreman for 31 years at the Illinois Terminal Railroad, before retiring in 1951.

Survivors include his wife, Mrs. Mona Pierce; six sons, Joseph and Edward Pierce, Granite City, Ivan Pierce, Madison, Everett Pierce, Daily City, Cal, Paul Pierce, Brooklyn, N. Y., Harry Pierce, Enterprise, Ala., three stepsons, George and Kenneth Wallace, Valley Park, Mo., and Leroy Wallace, Opache Junction, Ariz.; seven daughters, Mrs. Opal Lapinski, Granite City, Mrs. Althea Baysart and Mrs. Helen Williams, both of Portland, Ore., Mrs. Ann Simmons, Lansing, Mich., Mrs. Hattie Quirk, Edna, Carter and Mrs. Roberta Sprock, all of Valley Park, Mo.; 19 grandchildren, 18 great-grandchildren and one great-great-grandchild.

## GC Scholarship Foundation Prepares for Applications

Two new committee chairmen were appointed to executive positions with the Granite City Scholarship Foundation when the organization met last night at the start of the 1966-67 school year.

Lacy Randolph, foundation president, named Floyd E. Mitchell of Granite City Steel Co. to head the screening committee, and Paul Kelly of A. O. Smith Corp., as finance committee chairman.

It was announced that donations of \$400 had been received from the Dow Diamonds, a women's organization at Dow Metal.

The new \$628-acre industrial park here will have a tremendous impact on the Quad-Cities in the next decade, Chamber of Commerce directors commented at their February dinner meeting Tuesday night at the Rose Bowl.

During the effect on governmental services, job opportunities and economic growth, President Carl E. Mathias urged advance planning so that benefits rather than problems can be derived from the mammoth industrial development project.

Committee Chairman Edwin G. Schmitt outlined current industrial development efforts, and Vice President M. Freeman Wolfe reported on a telephone conference Tuesday between local Chamber officers and Sen. Everett Dirksen on national legislative issues.

### Ambassadors' Breakfast

It was announced that the local Chamber will be represented at a national "aircade" meeting Feb. 16 in Lafayette, Ind., and that a breakfast meeting of committee chairmen and Chamber Ambassadors has been set for 7:15 a.m. Feb. 24 at the Rose Bowl.

The 20th annual Business-Industry Agriculture dinner has been set tentatively for April 29, Vice-President Howard W. Kaseberg reported.

Plans were announced for a brochure and map which will indicate the locations of Quad-City rail as public relations chairman and Eugene Christie as chairman of the military affairs committee. Those submitting reports included William F. Winter and Ferd C. Goewert.

### MORE ABOUT Metro-East

that is done—that as soon as zoning can be changed we can have the land. We don't want a site on an if-coming basis. We want it now."

### Economic Influence

Baker told the meeting that the organization already has become "a real influence on the economic life on both sides of the Mississippi river" and pointed out that its success was based on the need for a central industrial development group for Madison and St. Clair counties.

"There were dozens of companies, communities and organizations all pulling separately in the matter of improving their own economic development and in taking part in an area-wide effort," he said. If Illinois Metro East had not been organized, Baker added, the need "would have been filled by an organization over which we would have had little or no control."

Illinois Metro East now has 81 members representing the area covered by Alton, East Alton and Wood River, Ill., Collinsville, Edwardsville, The Quad-Cities area, East St. Louis and Belleville.

Baker explained that while the principal effort of the first year has been to define objectives and set up an effective organization,

Products, and a \$450 contribution from the family of the late Nathan Fleishman. Mr. Fleishman, a Granite City high school student planning to seek financial assistance from the foundation, may obtain application forms from Miss Selma Nelson or Miss Mary Frances Lynch, at the high school office, Randolph announced. He added that applicants must return the completed forms prior to April 22 in order to be considered. Screening of applications is scheduled to start May 1.

Other representatives of contributing groups, who attended last night's meeting, included Dennis Ketchie, C. E. Blankenship, Charles Bazarnas, Mrs. Edna Hensley and Robert Spengler.

Monthly resumes of Chamber board and committee activities will be prepared for Ambassadors and members of the speakers' bureau.

Cooperation with city and county zoning officials were planned. Tours of development in other communities may be arranged for this spring to aid in reaching local zoning decisions.

It was announced that plans are proceeding for a Granite City school board candidate forum sponsored jointly by the Quad-City Ministerial Association, Granite-City Area PTA Council and Chambers of Commerce.

It was noted that the Granite City park district has received title to the former downtown post office and that demolition to create a park will take place soon.

Closer coordination with service station owners was discussed. Current Chamber investment policies were reviewed.

Melvin Gillie, manager of the W. T. Grant Co. store, was welcomed as a Chamber board member.

Mathias appointed Russell O. Creel as chairman of the personnel committee, Bill H. Terrell as chairman of the public relations committee and Eugene Christie as chairman of the military affairs committee.

Those submitting reports included William F. Winter and Ferd C. Goewert.

Illinois Metro East now is developing a program to "encourage and help existing communities and industries, and their own local organizations in our area to improve and strengthen their own industrial development programs and to organize industrial development teams to bring information about their own communities and the Metro-East area to prospective industries and commercial companies."

He announced that one of the first major projects will be the publication within a few weeks of a definitive brochure on the important industries that are already located in the area. It will contain the corporate trademarks and identifications of 40 nationally known companies and 100 other companies of regional scope already operating in this area.

"Out of this beginning," Baker said, "I believe we can look forward to a dynamic program of which we can be proud. More important, we will have an organization acting forcefully in the best interests of each of us and all of us."

Harold G. Meenen, vice-president of the Illinois Power Co., who proposed the formation of Illinois Metro East when his company's generating unit went into operation at the Wood River plant a year ago, congratulated the officers and members of Metro East upon their creation of a "dynamic reality out of what was only an idea a year ago."

"In Illinois Metro East," Meenen went on, "we are banded together. Through it we can serve our own best interests and work with all other groups for the betterment of the entire area from a position of strength and confidence."

Meenen also urged the organization to work closely toward the development of programs to this area's interest, although he conceded that it is probable Metro East would cooperate with similar organizations on the Missouri side of the river in projects that also interest this area.

He referred principally to the Regional Industrial Development Commission formed in St. Louis shortly after Metro East was established.

"We do not know what size and direction our program will be at this time, and we do not know the size and direction their program will take. Therefore I don't believe we should feel obligated to support RIDC programs that have no interest to us."

He pointed out that Illinois Power Co. is one of the five utilities and railroads that acquired the 9,000-acre industrial park tract adjoining the Tri-City Port District because of faith in the area's industrial potential. Illinois Power Co. will retain its part of the tract for sale only to new industry because "we have a vital interest in this area."

Only a few minutes of business was conducted during the meeting. This entailed approval of amendments to the by-laws, one of which changed the membership of the board of directors from 34 to 35 members. Another amendment set a minimum of 18 members as a quorum for the board of directors, instead of the previous 18. An amendment establishing procedure for election of directors also was adopted.

The amendments were presented for adoption by Randall Robertson, Granite City attorney, who, with Ralph Walker of East St. Louis, comprises the organization's legal committee.

Wallace Somerlad, 72, Dies; Ill Two Months

Wallace Philip Somerlad, 72, of 18414 Delmar avenue, died at 7:40 a.m. today, Feb. 3, 1966, at St. Elizabeth Hospital. He had been in failing health for two months and in hospital six weeks.

Born in St. Louis, Mr. Somerlad had resided in Granite City for the past five years. Before retiring in 1960, he was employed for 20 years as a machine operator with Velvee Freeze Ice Cream Co. of Kansas City, Mo.

He is survived by his wife, Mrs. Josephine Somerlad; two daughters, Betty and Mrs. Dorothy Weeks, both of Edwardsville; and five grandchildren.

Funeral arrangements are given in today's obituary column.

# Eight-Inch Snow

Mornings. Trucks in the company's yards were stalled and stuck in the snow.

Hardest hit of the steel plants was American Steel Foundries, where a spokesman said that the absent rate had nearly tripled over that of normal working days.

"Ten per cent of the company's 1300 workers were absent whether usually four per cent or lower are absent on a normal working day," according to Robert Bierer of the personnel department.

He added that operations were inconvenienced but not slowed down greatly.

Officials at General Steel Industries also reported that "there was considerably more than normal absenteeism," but they could not give any figures at the time.

Operations Near Normal

Laclede and Granite City Steel Companies' operations were not hampered, although a few more

than the normal absentees were reported.

Granite City Steel's shipping and loading operations slowed down for a time but were back to normal Wednesday.

At the Granite City Army Depot, 178 employees, or 12 per cent, were absent Tuesday. The depot employs 1475 persons. Nothing unusual was reported at the military installation, and all vehicles were ready to go without difficulty.

St. Elizabeth Hospital, which has a staff of about 500 persons, reported that absenteeism was at two percent and tardiness was at 6.5 per cent.

## Street Crews Work

Street department employees had their hands full throughout the emergency period and came close to working day and night with little time off.

William Warfield, Granite City street superintendent, said street department crews used 250 tons of cinders and 100 tons of salt and moved numerous truckloads of snow to the former city block in West Granite at Cedar street.

Fifteen men were at work Monday night cindering and salting intersections, and a street grad-

er was put into action. Fifteen men were back at work Tuesday morning, working until 4:30 p.m. and returning at 10 p.m. Thirteen were called out early yesterday, staying on the job until 4:30 p.m. and returning at 11 p.m.

## Nameki Twp. Work

Nameki township employees started cindering roads at 1 a.m. Tuesday and worked throughout the day. Charles Hanks, road commissioner, reported. Three trucks with plows and a grader were in operation. One truck was out of order with a burned out clutch.

Four regular men and 10 extra men were working. "Several were able to catch sleep in takes of two hours," Hanks added. Most danger spots were cindered Wednesday morning and the job was under control Wednesday evening. Many of the township roads were covered with snow drifts up to three feet deep.

## Full Crews Called Out

Both Madison and Venice called out their full street department work crews early Monday night.

Stanley Lucas, street superintendent at Madison, said his crew began spreading cinders and salt about 7:30 p.m. and remained on the job until 11 p.m., resuming the task again Tuesday at 5 a.m. The workers employed a cinder and salt spreader, a lift, grader and three trucks in an attempt to clear away the snow, but discontinued operations about 5 p.m. Tuesday.

Madison street department workers resumed work again early Wednesday morning, "hauling away as much snow as possible," Lucas said. City dump trucks were busy throughout the day, hauling large quantities of snow, piled into three-foot drifts by the city's snow plow. Lucas said the snow was being dumped on vacant lots throughout Madison.

Jay Maurer, Venice street superintendent, said his work force of ten men was called out about 6 p.m. Monday when the freezing rain turned to snow and began covering city intersections with salt. McKinley bridge also was salted immediately.

Venice has no snow plow, but workers shoveled away drifts at intersections and snow was hauled away in dump trucks. Maurer said the workers discontinued operations at 9:30 p.m. Tuesday, but were back on the job early Wednesday morning to clear away as much as possible of the eight-inch snowfall blocking drives and streets.

## School Absenteeism

The rate of absenteeism amid tardiness in the schools varied,

depending upon location and availability of school buses.

In the Granite City system, 3293 students stayed home Tuesday out of a total enrollment of 13,434, or about 24 per cent. Seventeen teachers from a total faculty of 450 were unable to make it, mostly due to illnesses.

The Madison school district reported that about 20 per cent of the enrollment of 8004 stayed home, but that the normal rate of absentees is about five per cent. Most teachers were in their classrooms.

At Venice, about 30 per cent of the kindergarten and primary grade pupils were absent, but only 17 from the high school. Two teachers were absent.

Showing the largest rate of absenteeism was Prather junior high school with 301 of the 840 students missing on Tuesday.

Also a hard hit was Stallings school where 147 of the 377 pupils were absent. At Granite City high school, with an enrollment of 2550, a total 400 students were missing. Of 263 at Madison junior high school, 50 were out.

## School Buses Late

School buses in Granite City ran 35 to 40 minutes late, and pupils on some rural roads were not picked up unless they walked to the main route. Operations were near normal yesterday afternoon, with buses making complete runs on routes except for the last fifth mile of Thorngate road which was impassable. It was still drifted this morning.

Numerous social and civic meetings were postponed or canceled, and several athletic events were postponed Tuesday night because of road conditions. Included were high school basketball games scheduling Assumption at Madison and Venice at Aviston and a wrestling meet at Granite City at Edwardsville. The Venice game was postponed indefinitely while the other two were held Wednesday.

Emergency vehicles were ready to move at all times. Street department crews in the cities kept approaches to fire stations clear, while fire chiefs in area townships said their equipment was large and well enough equipped to plow through any snow bank. Funeral home personnel kept ambulance service operational for every emergency.

## Marriage License Issued

A marriage license has been issued in St. Louis to George O. Owens, 34, of Granite City, and Karen L. Owens, both of Granite City.

## LIST WITH COCHRANE AND ITS "50"

Emergency vehicles were ready to move at all times.

"DENTAL HEALTH WEEK Feb. 6-12 being proclaimed by Mayor Partney, who begins brightly for the little "Dental Health Week Girl," Rebecca Vartan, 8, daughter of Mrs. Isabelle Vartan, receptionist at the Granite City Army Depot dispensary. Also present for the proclamation signing was Capt. Frank P. Bellipanni, post dental surgeon at the depot.

## Programs at Schools

# Dental Health Week is Proclaimed for Feb. 6-12

The Granite City Army Depot has joined forces with the Tri-City Dental Society and will handle a large portion of this year's observance of National Children's Dental Health Week—Feb. 6-12.

The depot's program is being handled by Capt. Frank P. Bellipanni, post dental surgeon, and Mrs. Bejay Jean Stallings, post dental hygienist, who will visit public schools in Granite City.

The Tri-City Dental Society is now headed by Dr. Vasil Vasilief, vice-president, since this week's departure for Massachusetts by the president, Dr. Richard Yeager, and family. The society will conduct oral hygiene programs for youngsters in all schools. The annual poster contest was discontinued this year.

Capt. Bellipanni is to meet next week with pupils, teachers and principals in 14 elementary schools and will give lectures and demonstrations on good oral hygiene practices.

## School Concerts Offer Excellent Entertainment, Deserve Support

May I preface these remarks by saying that I am in no way connected with the high school band or any of its members?

My wife and I have just returned from a concert, conducted by Mr. Louis Meek, that all of Granite City can be proud of. This concert did not miss the rapid pace of a basketball game or football game, but it certainly offered all the thrills of seeing a job well done by a group of young people.

What a disappointment the students must feel as they see an audience outnumbered by the band, as they hear the rustling of a murmur of conversation drifting from the audience, as they hear the very limited applause with which the audience shows its appreciation.

Why is it that a town of 40,000 people cannot find time to support the high school band? It cannot be credited to

## FEARS ONE-WAY STREETS WOULD CREATE PROBLEMS

To the Editor:

I should like to take issue with Mr. G. L. Crawford, Chief Traffic Engineer, and some members of the City Council in regard to the proposed traffic changes on some of our city streets.

Mr. Crawford states that by extending one-way streets of Cleveland, Benton, Oregon and Grand, congestion will be greatly reduced in the downtown area. That these changes will materially affect the flow of traffic into and out of the downtown section a mile or more away, I seriously doubt.

But I can tell you what making one-way streets in this area will do.

It will greatly increase the speed of traffic through these fine old residential areas, creating serious hazards to children and citizens who live here.

It will cause inconvenience to those who own automobiles and who live here.

And it will be the first and long step toward making these areas into a third-class residential area.

All one needs to do is to look to East St. Louis, St. Louis and other cities to see what has happened to old respectable neighborhoods that have been turned into one-way speedways for the auto age.

### New Way to 'Get Smart' Studied

What may become a "smart pill" is now being tested on people, the Press-Record has been advised by the American Association of Science following its latest "Congress of Science."

Slow-learning laboratory rats given the drug (magnesium penicillin) learned a task four or five times faster than did slow learners without the drug. And they retained the skill longer, according to scientists at Abbott Laboratories.

Tests of the drug are now beginning on human pre-adolescent cases at the Veterans Administration Hospital in Albany, N. Y.

**Basic Life Chemical**

The drug, though it stimulates production of the basic life chemical RNA, does not change the genetic makeup of a person. It is thought to have practically no bad side effects.

Among possible uses suggested for the "smart pill" are to sharpen the minds of senile and retarded patients.

However, the drug merely enhances the latent potential of a person. It cannot cure brain damage, for example.

Elsewhere in the scientific field there is concern over whether people should be given too "smart" for their own good and worry themselves into physical ailments.

**Study Mind, Emotions**

Rochester University has received a special grant from the U. S. Public Health Service to study how the mind and emotions may contribute to development of physical illnesses.

Reported by the American Institute of Biological Sciences, the study is based on clinical evidence which seems to indicate that psychological factors frequently influence the onset of physical illness.

Investigators will search for information on why and under what conditions people get sick. They hope to point out ways of predicting and interfering in the onset of disease.

Important to the seven-year study is the concept of "giving up," a psychological state of last week.

Flames completely destroyed a one-story, six-room frame house at 526 Bend road, Monday afternoon, while fireman stood nearby and watched.

An overheated coil oil stove apparently started the fire late in the afternoon, while the Percys were in town, and a young 17-year-old Gary Wallace was in the tool shed.

There was no damage estimate to the house or its contents, but the young Wallace did say that he and his parents would stay with relatives. All clothing, and personal possessions were lost in the blaze, Wallace said.

### IRS Booklet Available On Income from Tips

A special booklet now required by law to report income from tips to their employers every month is now available from the Internal Revenue Service, according to Jay G. Philpott, district director for central and southern Illinois.

The booklet explains the law's requirements, provides space to record each day's tips for 12 months, and has over a year's supply of the forms needed to make monthly reports of tip income to employers.

Philpott said that copies of the booklet on tips, Document 5635, Employee's Daily Record of Tips and Report of Tips to Employer, are now available free from any Internal Revenue Service office.

Employers, unions and other organizations may obtain bulk quantities of the booklet for distribution by writing to Blank Form, PO Box 1468, Springfield, Ill., 62705.

New laws passed in 1965 require all employees receiving \$20 or more in cash tips a month to report them to their employers by the 10th day of the following month. This tip income will now count towards Social Security and Railroad Retirement benefits.

**JET-SMOOTHER THE CHEVROLET WAY**

We fussed over parts no bigger than your thumbnail to smooth Chevrolet's ride. We added new bushings, softened body-to-frame mounts, again put in soft-riding shock absorbers and soft-working coil springs at every wheel.

By soft, though, we don't mean mushy. Chevrolet's Way makes for a smooth, solid ride. Very steady on curves. A bump jumps from the Wide-Stroke wheels to the supple springs and shocks—and pffft! It all but disappears. And so does, we hope, the last of anybody's reasons for buying a more expensive car.

The powerfully smooth new Turbo-Jet V8 is the smoothest in all '66 Caprice, Impala SS, Impala, Bel Air and Biscayne models.

Eight features now standard for your added safety: Seat belts front and rear • Padded instrument panel (use it always before passing) • Shatter-resistant inside mirror • Wipers with electric wipers for better visibility in a downpour • Windshield wipers • Backup lights.

Soft contoured new Strato-bucket front seats come standard on Super Sports for relaxing comfort on every trip.

All kinds of cars, all in one place...at your Chevrolet dealer's: Chevrolet • Chevelle • Chevy II • Corvair • Corvette

**Tri-Hi-Y Clubs 'Adopt' Girl, 7, in Hong Kong**

The YMCA Teen Town has "adopted" a needy Chinese girl, aged seven, who resides in Hong Kong, and has received her case history.

She is Kwong Key Mei, who is being supported by 60 high school girls, members of the Gamma Omega Delta, Sigma Rho and Alpha Beta Chi Tri-Hi-Y clubs.

They are providing \$185 for the girl's food, clothing, shelter and educational expenses through the Foster Parents Plan, an organization to assist orphans and refugees in overseas countries.

Key Mei lives with her parents, Roger and Mrs. Key Mei, four, their home is one cubic of a government resettlement building which rents for \$1.16 per month.

Meager Furnishings  
Furnishings consist of a double-bed iron bed, a chest of drawers, a desk, a meal locker, a table, a few chairs and stools. A little bedding and a few cooking utensils complete the inventory of the foster parents.

Key Mei's father works on the docks, loading and unloading ships. Along with the mother, she manages the household.

From the money donated by the clubs, Key Mei will receive a cash grant of \$8 a month, medical care, textbooks, shoes, clothing, a blanket, towels and other items.

To Write Letters  
Club members will correspond with Key Mei monthly and will be able to send her parcels which they will prepare with other items that Key Mei might need or want, Bronsman said.

Special preparations will be made by the clubs to share with Key Mei the celebration of her Chinese holidays as the New Year, the Dragon Boat festival, usually in May, the mid-autumn festival, usually in September, and Christmas. Chinese holidays are celebrated on the lunar calendar so do not fall on the same date every year.

Since the letters must be translated at the New York headquarters of the Foster Parents Plan, and to the volume of 40,000 letters handled each month, it may be several months before club members receive their first letter from Key Mei.

Meanwhile, 60 local girls will be able to learn all they

Graduates receive the associate in technology degree from SIU and are prepared for the FAA airframe and power plant license, according to Edmund A. DiRosa, coordinator of the program.

**\$169,900 Raised for World Service in State**

The state total for 1964 was \$145,405, making the 1965 total \$244,344 higher, an increase of 16%.

A total of 24,129 students are enrolled for the winter quarter on Southern Illinois University's Carbondale and Southern Illinois campuses, according to Registrar Robert A. McGrath.

McGrath said the figure represents an increase of 325 students, or 1.5%, over the same quarter a year ago, but is a drop of 323 from the record 1965 fall quarter enrollment.

The winter quarter total includes 17,457 Carbondale campus students and 6,672 on the Southern campus. Largest group is the Carbondale campus freshman class with 6,057 members, mission guest speaker.

**Tree Research Project Planned at Carbondale**

The Southern Illinois University board of trustees has cleared the way for possible joint construction of greenhouse facilities by SIU and the Carbondale Forest Research Center of the U.S. Department of Agriculture.

The Forest Research Center already has conducted a 2.5-acre land and made planting of walnut seedlings on the area about two miles west of the Carbondale campus.

## Farm Column

By TRUMAN W. MAY,  
Madison County Farm Adviser

### Soybean Seed Testing

Reports of germination tests of soybean seed indicate many beans intended for seed will not be fit to plant because of low germination. Many tests have shown less than 50% germination, far too low for use for seed. The situation is serious and many farmers may have difficulty in obtaining good seed if they delay getting their supply.

Every farmer planning to use his own seed should by all means get a germination test, preferably by sending a sample to the State Seed Laboratory at Springfield. Some seed dealers are sending in samples for farmers as a free service.

Just why there is so much poor seed is not easy to explain, although it may be due mostly to the variable weather conditions during the growing season. Seed grown in the bottomlands of the western part of the county seems to be somewhat better than on the upland areas, but there is much poor seed in lowlands too. There is no significant differences between varieties.

In most years germination should average 80% or above. Soybean seed loses its vitality faster than most seeds and it is not advisable to plant seed more than a year old.

The seed should be free of damaged beans. Soybeans are easily cracked or broken in handling. If cracked beans are in the seed, they lower germination and give an uneven stand. Soybean seeds should be plump and well filled. Good color and luster usually indicate that the seed is healthy. High seed weight per bushel is another indication of good quality. Seed should be true to the variety type. Buying certified seed is one way to get seed that is true to name.

More results of soybean seed germination will be reported as more tests are made. In the meantime, don't delay arranging for your 1966 seed supply.

### Beef Feeding School

Beef cattle feeders have an opportunity to go back to brush-up on their production and management skills at the county beef feeding school Feb. 31 and 18. The University of Illinois extension specialists in livestock, farm management, agricultural engineering and veterinary medicine will serve as instructors during the programs. Enrollments are now being received.

The school includes instruction in feedlot nutrition, feed handling, buildings and equipment, health of feeder animals and marketing and outlook information.

U. of I. specialists will deal with each of these topics in depth. The feedlot nutrition discussion will cover nutrition requirements; corn silage for finishing beef cattle; feed preparation; feeding high-moisture corn, haylage and legume silage; feedlot management; balancing beef cattle rations; and feed tag analysis.

All farmers interested in beef cattle are invited to attend the school. Advance enrollment at the farm adviser's office is requested.

Winners in the 1965 X-Tra Yield Corn Program were announced at a recognition program recently at the University of Illinois.

X-Club members who represented Madison county were Kenneth Balsters of the Bethalto 4-H club who won the highest yield in the county 4-H corn project with 151.5 bushels per acre and Kenneth Gruendert of the Pin Oak 4-H club. The winning

state yield was 227 bu., grown in Madison county.

The X-Tra Yield Corn Program is designed to help 4-H members efficiently produce high-quality corn by practicing good management with emphasis on high yields. The aim is to recognize 4-H members who have done an exceptionally good job in the five-acre corn yield project, demonstrating the benefits of improved practices in corn production. This year 80 Illinois counties had entries in the contest, sponsored by FS Service, its member companies and the University.

The ten highest producing herds in the Madison County Dairy Herd Improvement Association in December were owned by Waldo Keilbach, Harold and Carl Baumann, Wilbert Weis, Henry Zetler, Harold Klenke, Vernon Becker, Wilbur Federer, Leland Steiner, Normann Henke and Jim Beane.

The highest producing herd for the month was owned by Waldo Keilbach. This herd consisted of 31 cows. The average production was 1.89 pounds butterfat and 43.3 pounds milk per day with an average butterfat test of 3.9 percent.

A new publication has just been received at the farm adviser's office concerning the performance of commercial corn hybrids in Illinois. The bulletin reports yields for the past three years for a number of varieties. The tests were run at a number of different locations in the state of Illinois along with several different planting rates. Copies of the bulletin can be secured without charge.

The first enrollment period for the new Federal health insurance ends March 31, 1966. Be sure you have complete information on how this insurance applies to you, so you can meet the requirements.

Farm families and other residents, perhaps more than any other group in the nation, stand to benefit from Medicare.

First, rural Americans will benefit more than most because a larger percentage of them are older than city residents. Today some 25 million farm people, 19 percent of the total 130 million farm population, are either 65 or older or in the 55-64 age group that will qualify for Medicare within 10 years. Another 7.5 million people in these two age groups live in rural areas but don't farm.

Second, rural Americans will benefit more than most because of the health insurance. It's estimated that only 41% of all farmers and the only 47% of nonfarm rural residents over 65 now have pri-

Eight reserved tickets remain for Tuesday's Granite City park district-sponsored theater excursion to the American Theatre, St. Louis, for a performance of "The Subject Was Rome." He added that reservations may be made by calling the park office at TR 7-0650.

Brown also announced the entire quota of 140 tickets has been sold for the Memphis-St. Louis Braves hockey game, to be played in St. Louis Saturday evening. No additional tickets are available for a hockey trip, a new innovation in park district excursions, Brown added.

## Area's Precipitation Tops Normal Amount in January

The Quad-Cities' precipitation topped the normal amount for January, according to the 2.39-inch total recorded at the Chain of Rocks canal locks. The total was 2.39 inches, compared to the normal amount of 1.88-inch.

The January total does not include the Monday night freezing drizzle that preceded the snow, since the gauge on the center wall of the canal locks is read at 7 a.m. each day. The reading on Feb. 1 (Tuesday) at 7 a.m. was 5.7 inch with snow measured at four inches.

January started out with 1.86 inch of rain recorded on the first day, followed by .32 inch on Jan. 2.

Precipitation was recorded on 11 days, which also included 15 inch on Jan. 13, and .02 inch on Jan. 19, Jan. 22 and again on Jan. 23. Traces (less than a hundredth of an inch) were recorded on Jan. 10, 17, 18 and 29.

Snowfall was recorded as flurries on Jan. 17, 18 and 19 and a quarter-inch was noted on Jan. 22.

In January 1965 there was 2.88 inches of precipitation, which included a total of seven inches of snow. Rainfall in December amounted to 2.52 inches.

Normal precipitation for February is 2.94 inches.

### Good Coffee—What's the Secret?

Few things are more delicious than a cup of good, hot coffee, but how difficult it is for many people to prepare a beverage that is fragrant and full-bodied in flavor. What's the secret?

The first requirement is making good coffee is to use top quality, freshly ground coffee. Some of the flavor constituents in coffee begin to evaporate as soon as the beans are ground.

If you buy ground coffee, store it in a tightly covered container, and buy only one week's supply at a time.

The second requirement is an immaculate coffee pot. You can make good coffee in any type of coffee-maker on the market today, provided you keep it clean. Since coffee contains oils that accumulate on the inside of the equipment, wash it after each use. Rinsing is not adequate. Wash the equipment in hot, soapy water, rinse it thoroughly and store it uncovered.

The third requirement is correct measurement of the coffee and the brewing time. The standard amount of coffee to use is 2 level tablespoons for 3/4 cup of water. If you prefer weaker coffee, reduce the amount.

The brewing time will depend on the type of coffee-maker you use. Read the manufacturer's instructions and follow them carefully. Long brewing will not make stronger coffee, but will cause the extraction of bitter flavors.

Break the coffee just under the boiling point. Boiling will cause excess tannin, caffeine and bitter substances to be dissolved in the water. The result will be an undesirable flavor.

### Closet Space Shortage

"Any 'white elephants' tucked away in your closets? If so, the start of a new year is a prime time for tossing out all space wasters.

If you have teenagers in your family, ask them to lend a hand. It is only natural that they'll be sentimental about some items, but have them make the "wear" test, using these questions:

"How long has it been since I've worn this garment? Is it the right size? Is it in style? How much will it cost to remodel the garment to fit into my wardrobe plans for the season?"

If some items belong in the "won't wear again" class, give them to someone who can make use of them. They do not deserve closet space in your home.

### Read Labels

Mixing chlorine bleach with other household agents can be dangerous. However, the National Safety Council points out that the hazards involved are sometimes exaggerated.

It is always wise not to mix household cleaning products unless label directions indicate that it is safe to do so. Because of familiarity with chlorine bleach as a laundry aid, many homemakers overlook the caution statements on the label. They know that the mixture of chlorine bleach with laundry detergents or soaps is not a health hazard.

But some products used in the home are sufficiently acid to cause the formation of chlorine gas. For example, most toilet cleaners and some rust removers contain strongly acidic ingredients. These products should never be mixed with chlorine

bleach because of the possibility that unpleasantly irritating or even dangerous amounts of chlorine gas could be released.

Under most circumstances the chlorine fumes from a mixture of bleach and acid cleaner would not be dangerous. But the possibility that extreme circumstances might result in injury seems to justify warning consumers.

Never mix chlorine bleach with household ammonia. Such a mixture usually produces chloramine fumes. Exposure to these fumes can be unpleasant, causing watering of the eyes, irritation of the nose and throat and nausea.

Like any other household chemicals, chlorine bleach should be used only according to directions.

### Buckingham Death Caused By Cerebral Hemorrhage

STUDENTS OF THE fourth grade class at Wilson school kept an explanation by Paul Halbert of the Press-Record staff as they toured the newspaper's facilities Monday afternoon.

### Fourth Graders Tour P-R Shops, Offices

Twenty-three students of Miss Janice Maynard's fourth grade class at Wilson school toured the Press-Record facilities Monday afternoon.

The students, accompanied by three mothers, saw the different phases of printing a newspaper, including the running of the presses.

The students were Brenda Stover, Lois Scott, Sue Ann Jackson, Kim Warmack, Sheryl Pearson, Judy Sherman, Terry Tankesley, Mike Mezo, Steve Bradshaw, James Garner, Mark Bollinger, Richard Tindall, Barbara Leidner, Joy Pope, Edward Belling, Larry Griffin, Bert Iverson, Terri Buzan, Shelia Mangan, Mary Beth Hedges, Sharon Eddleman, Cynthia Huether and Terry Jones.

### Double Draft Call This Month for Quad-Cities Area

A double draft call is scheduled for Quad-Cities youths this month.

The area has a quota of 30 youths to report Feb. 18 for armed forces induction and another group of 30 youths will be drafted Feb. 25. In January, the call was for 34 men, and 24 were inducted.

Also this month, 55 youths are to report tomorrow to the county selective service office at Eagle.

variable for pre-induction physical examinations.

The draft quotas will not be available until later this month.
